# SUBJECT INDEX TO VOLUME 42

(abs) = abstract (E) = editorial

Acetabulum, rôle of changes in, in Perthes' disease (abs), 625
Adenocarcinoma of intraoral minor salivary gland, 508
Adenoma, hyperparathyroidism with rather rapid recalcification of bone following removal of (abs), 318
Adrenal glands, rôle of perirenal injections of gas in roentgen study of (abs), 792
Adult, intussusception in, 276
upper lobe pneumonia in (abs), 147
Ainhum, its occurrence in the United States, 246
American Board of Radiology, 137
American Roentgen Ray Society, annual meeting (E), 126; (E), 599
commercial exhibit, 610
new members elected, 1939, 776
officers elected, 1939, 610
program of fortieth annual meeting, 132
scientific exhibit, 605
Amniotic sac, roentgen visualization of, 709
Amputation, spontaneous, of tongue, 843
Anemia, osteosclerotic (abs), 628
Aneurysm, cirsoid, of scalp (abs), 461
dissecting (abs), 617
dissecting, of aorta (abs), 791
of coronary arteries (abs), 463
Angioma in children, radium treatment, 726
Angiosarcoma of bone, 656
Anthracosilicosis, multiple giant bullae associated with, 186
Antirachitic preparation, phosphorus poisoning resulting from (abs), 319
Antrum, carcinoma, life expectancy and incidence of (abs), 475
Aorta, coarctation of (abs), 153; (abs), 617
dissecting aneurysm of (abs), 791
roentgen examination of, 75
Apices, pulmonary, tumors of, and adjacent regions involving brachial plexus (abs), 150
Apparatus, expanding speculum for transvaginal roentgen therapy, 423
for maintaining developing solutions at constant temperature, 141
for measuring quantity of radium, 900
for pneumo-encephalography, 307
for rotational irradiation (abs), 474
for stereoscopic roentgenography of skull, 921
for stereoroentgenoscopy using polarization, 143
universal dosimeter and ultrasensitive electrometer, 428
Artefacts, medullary, in prehistoric bones, 374
Arteries, coronary, aneurysms of (abs), 463
Arteriography, circulatory disturbances in brain resulting from vascular diseases and space occupying lesions as shown by (abs), 787
indications for (abs), 159
use in, of substitutes for colloidal thorium dioxide (abs), 320
Artery, left vertebral, aneurysmal dilatation of (abs), 617
pulmonary, diffuse dilatation of (abs), 154
pulmonary, roentgen examination of, 75
Asbestos body and similar objects in lung (abs), 149
Asbestosis, pulmonary (abs), 149
Asphyxia, local, and roentgen irradiation of transplantable rat tumors, 745
Asthma, relation of heart size to constitutional type in persons with (abs), 463
Atelectasis, "plate-like," of lung (abs), 616
pulmonary, in reference to etiology of bronchiectasis (abs), 464
Atrophy, cerebral, rapidly progressing due to trauma, encephalography in (abs), 146
use of hydrochloric acid in (abs), 159
Axis vertebra, osteoclastoma of (abs), 471

Backache and sciatica, 607
Banti's syndrome with esophageal varices and early hematemesis (abs), 154
Barium enteroclysis, 456
Basilar impression (platybasia) (E), 443
Benzpyrene, production of epithelial tumors by combination of beta radiation and painting with (abs), 480
Beta radiation, production of epithelial tumors by combination of, and painting with benzpyrene (abs), 480
Bile duct, common, pathologic physiology of (abs), 314
Biopsy, aspiration, of tumors in obscure or difficult locations under roentgenoscopic guidance, 515
Bladder, urinary, carcinoma of (abs), 627
urinary, diverticula of (abs), 471
Blood vessels, great, visualization of, in heart disease, 14, 450
Boeck's sarcoid (abs), 628
Bone, angiosarcoma of, 656
correlation between serum phosphatase and roentgenographic type in disease of (abs), 317
hyperparathyroidism with rather rapid recalcification of, following removal of adenoma (abs), 318
Bones, evidences of disturbed prenatal and neonatal growth in, of infants (abs), 158
fractured, use of hydrochloric acid in delayed calcification in (abs), 159
long, tuberculosis of (abs), 158

metastases to, following treatment of uterine carcinoma (abs), 631
multiple cystic tuberculosis of, in children (abs), 157
of growing rats, variations produced in, by parathyroid extract (abs), 478
of skull, reaction of, to intracranial lesions (abs), 462
prehistoric, medullary artefacts in, 374
roentgen appearance of tumors of (abs), 626
signs of fatigue and overwork in (abs), 623
BOOK REVIEWS
The 1938 Year Book of Radiology. Edited by Charles A. Waters, Whitmer B. Firor, and Ira I. Kaplan, 138
Diagrafía: Nuevo metodo radiográfico para el estudio de la órganos móviles. By Guido Pollitzer, 139
A Handbook of Roentgen and Radium Therapy. By A. J. Delario, 139
Pyrétothérapie. By Charles Richet, Jean Surmont, and Pierre Le Gô, 139
A Text-Book of X-Ray Diagnosis. By British Authors. Edited by S. Cochrane Shanks, Peter Kerley, and E. W. Twining, 452
Cancer of the Colon and Rectum: Its Diagnosis and Treatment. By Fred W. Rankin and A. Stephens Graham, 453
Some Fundamental Aspects of the Cancer Problem. Edited by Henry Baldwin Ward, 454
Précis de technique radiographique. By P. Porcher and A. Juquelier, 778
Le duodénum: Atlas de radiologie clinique. By P. Cottenot, Max Lévy, and Ed. Chérigié, 778
Clinical Roentgenology of the Digestive Tract. By Maurice Feldman, 779
Röntgendiagnostik der Gelenke mittels Doppelkontrastmethode. By J. Oberholzer, 779
BOWEN, DAVID RALPH, 1872–1939, obituary (E), 912
portrait, 912
BRACHIAL PLEXUS, tumors of pulmonary apices and adjacent regions involving (abs), 150
BRAIN, circulatory disturbances in, resulting from vascular diseases and space occupying lesions as shown by arteriography (abs), 787
BREAST, cancer, treatment of, by radiation therapy, 389
carcinoma, deep roentgen therapy of, 866
carcinoma, fifteen year observation, 866
carcinoma, further observations, 393
inflammatory carcinoma of (abs), 475
roentgen treatment of primary inoperable carcinoma of, 534
BRONCHIECTASIS, etiology of (abs), 464
in children (abs), 616
BRONCHOGRAPHY, diagnosis of bronchial carcinoma by means of (abs), 615
BROWN-PEARCE RABBIT EPITHELIOMA, lethal effect of roentgen radiation produced by 50 to 1,000 kv. upon, 100
transplant, vascularization of, as seen in transparent ear chamber, 891
BUCCAL CAVITY, cancer, dental lesions observed after roentgen therapy in, 404
cancer, roentgen therapy, 418
BULLAE, multiple giant, associated with anthracosilicosis, 186
BULLETIN of Inter-Society Committee for Radiology, 301, 449, 603, 773, 917

CALCIFICATION, delayed, in fractured bones, use of hydrochloric acid in (abs), 159
of costal cartilages (E), 767
of gastric wall, diagnosis (abs), 620
CALCINOSIS UNIVERSALIS with unusual features (abs), 471
CALCIUM gluconate, remote deposit of calcium salts following injection of (abs), 319
metabolism, effects of treatment on, in human body (abs), 632
metabolism in ossifying fibroma of mandible (abs), 795
salts, remote deposit of, following injection of calcium gluconate (abs), 319
utilizations of (abs), 318
CALCULI, small, effect of, on renal function, 693
urinary, developing in recumbent patients (abs), 470
CALDWELL LECTURE, 1938, 161
CANCER, life expectancy and incidence of (abs), 475; (abs), 477
mammary, treatment of, by radiation therapy, 389
of buccal cavity and cervix uteri, roentgen therapy of, 418
of buccal cavity, pharynx and larynx, dental lesions observed after roentgen therapy in, 404
ovarian, fracture of neck of femur complicating roentgen therapy of, 883
superficial, low voltage lightly filtered roentgen radiation versus radium and high voltage roentgen radiation in treatment of, 556
treatment of, 161
CARCINOMA, and irradiation keratoses, 540
and prepyloric ulcer, 797
bronchial, roentgen diagnosis by bronchography in conjunction with tomography and stereoscopy (abs), 615
inflammatory, of breast (abs), 475
mammary, deep roentgen therapy of, 866
mammary, fifteen year observation, 866
of antrum, life expectancy and incidence of (abs), 475
of breast, further observations, 393
of gastrointestinal tract, life expectancy and incidence of (abs), 477
of hypopharynx producing dysphagia, 173

of larynx, life expectancy and incidence of (abs), 475
of lip, life expectancy and incidence of (abs), 475
of lung, association of silicosis with (abs), 150
of oral cavity, life expectancy and incidence of (abs), 475
of tongue, metastases from, 833
of urinary bladder (abs), 627
primary bronchogenic, 605
primary inoperable, of breast, roentgen treatment, 534
primary, of lung, 606; (abs), 615
primary, of ureter (abs), 315
uterine, osseous metastases following treatment of (abs), 631
Walker rat No. 256, comparison of cytoplasmic changes induced in, by different types and dosages of radiation (abs), 477
Cat, distribution of lead in, after intravenous injection of colloidal lead preparation and effect of irradiation (abs), 480
Cell growth, substances determining, 161
Cerebral atrophy, rapidly progressing due to trauma, encephalography in (abs), 146
pneumography in childhood (abs), 461
ventricles, dilated, explanation for ribbing seen in walls of (E), 769
Chicago Roentgen Society, 136
Childhood, early, factors influencing appearance of centers of ossification during (abs), 794
Children, bronchiectasis in (abs), 616
cerebral pneumography in (abs), 461
crippled, radiological services for, 449
healthy, size of heart in (abs), 152
lipoid pneumonia in (abs), 789
multiple cystic tuberculosis of bones in (abs), 157
radium treatment of angioma in, 726
roentgen therapy of cystic hygroma of neck in, 551
value of special roentgen procedures in detecting cardiac enlargement in, with rheumatic heart disease (abs), 790
young, enlargement of heart in (abs), 463
Cholecystography, floating gallstones an artefact in (abs), 470
medical economics of, 529
reactions following use of pitressin in, 811
Chondrodysplasia (abs), 796
Chondrodystrophy calcificans congenita, 607
Chondro-osteodystrophy (abs), 623
Cineroentgenography, cardiac, 607
Circulation, pulmonary, visualization of, in heart disease, 14, 450
Circulatory disturbances in brain resulting from vascular diseases and space occupying lesions as shown by arteriography (abs), 787
Cirrhosis, malignant lymphogranulomatous, of liver (abs), 159
Clinical symptoms useful as guide for roentgen therapy, 565
Coarctation of aorta (abs), 153; (abs), 617
Coccidioidomycosis (abs), 628
Colitis, ulcerative, 608
Colon, roentgen examinations in tropical diseases of (abs), 792
Condyle, lateral, of humerus, regeneration of, after excision (abs), 795
Congenital cardiovascular disease, roentgenology of, 72
ciliated columnar epithelial cysts of mediastinum (abs), 148
defect of femur with malformations of pelvis and hand (abs), 624
pseudoarthrosis of tibia, 104
Coronary arteries, aneurysms of (abs), 463
Costal cartilages, calcification of (E), 767
Crohn's disease (abs), 468
Cushing, Harvey, biography of, 777
Cysts, calcified hydatid (abs), 160
congenital ciliated columnar epithelial, of mediastinum (abs), 148
Cytoplasm, changes of, induced in Walker rat carcinoma No. 256 by different types and dosages of radiation (abs), 477

Deglutition, roentgen examination of (abs), 614
Dental lesions observed after roentgen therapy in cancer of buccal cavity, pharynx and larynx, 404
Developing solutions, device for maintaining solutions at constant temperature, 141
Diaphragm, hernia of, in newborn (abs), 154
Dilatation, aneurysmal, of left vertebral artery (abs), 617
diffuse, of pulmonary artery (abs), 154
Diodrast, excretory urography by intramuscular injection of (abs), 793
for use in arteriography (abs), 320
for visualization of chambers of heart, pulmonary circulation, and great blood vessels in heart disease, 14
Directory of medical specialists, 919
Diverticula, inflammatory, of heart, 38
true and false, of duodenum, differential diagnosis (abs), 155
vesical, 53 cases of (abs), 471
Diverticulum, Meckel's, roentgen diagnosis, 280
of duodenum (abs), 468
Dosage delivered by radiation therapy, calculations of, in mammary cancer, 389
depth, effect of heavy filtration on, 756
method of obtaining greater ratio of deep to surface, 760
small, in radiation treatment of functional gynecological conditions, 731
Dosimeter, universal, and ultrasensitive tube electrometer, 428
*Drosophila melanogaster*, comparative effect of 200

kv. roentgen rays and gamma rays on pupae of (abs), 479
Duodenum, diverticulum of (abs), 468
perforation of, in newborn (abs), 792
true and false diverticula of, differential diagnosis (abs), 155
Dyschondroplasia of distal radial epiphysis, 671
Dysphagia, diseases of hypopharyngeal region producing, 173

Ear chamber, transparent, vascularization of Brown-Pearce rabbit epithelioma as seen in, 891
Editorials
The annual meeting, 126
Byron Hubbard Jackson, 1873–1939, 127
Essentials of a registered hospital, 291
Henry Khunrath Pancoast, 1875–1939, 293

The annual meeting, 599
Calcification of the costal cartilages, 767
Explanation for the ribbing seen in walls of dilated cerebral ventricles, 769
The radiotherapeutic aspect of malignant tumors of the thyroid gland, 909
David Ralph Bowen, 1872–1939, 912
Effect, biological, of roentgen rays (abs), 634
comparative, of 200 kv. roentgen rays and gamma rays on pupae of *Drosophila melanogaster* (abs), 479
of heavy filtration on skin tolerance and depth dose, 756
of irradiation on distribution of lead in cat after intravenous injection of colloidal lead preparation (abs), 480
of radiation therapy on gastric secretion (abs), 630
of roentgen rays on inflammatory processes, mechanism of (abs), 934
of roentgen rays on nucleated and non-nucleated egg fragments (abs), 479
of treatment on radium and calcium metabolism in human body (abs), 632
physiological, of radiation, 110
Egg fragments, nucleated and non-nucleated, action of roentgen rays on (abs), 479
Electrical protective device in radium work, 930
Electrometer, ultrasensitive tube, and universal dosimeter, 428
Emphysema, spontaneous mediastinal (abs), 789
Encephalitis, roentgen treatment, 561
Encephalography in rapidly progressing cerebral atrophy due to trauma (abs), 146
intracranial conditions in childhood identified by (abs), 461
Endocrine influences, sensitivity of skin to roentgen radiation and its relation to (abs), 633
Endothelioma, vascular, of lung (abs), 466
Enteroclysis, barium, 456
Epiphyseolysis, etiology of (abs), 157
Epiphyses, hereditary multiple disturbances of ossification of, as clinical entity (abs), 624
persistent vertebral process, 85
Epiphysis, distal radial, dyschondroplasia of, 671
Epithelioma, Brown-Pearce rabbit, lethal effect of roentgen radiation produced by 50 to 1,000 kv. upon, 110
transplant, Brown-Pearce rabbit, vascularization of, as seen in transparent ear chamber, 891
Esophageal varices, effect of splenectomy and ligation of gastric coronary vessels, in case of Banti's syndrome with early hematemesis (abs), 154
Esophagitis, stenosing, associated with duodenal ulcer, 724
Esophagus, dilatations of, 173
mucosal pattern technique and kymographic records of (abs), 466
stenosis of, 173
ulcers of (abs), 147
Ewing's sarcoma (abs), 626
sarcoma, diagnosis, differential diagnosis and therapy (abs), 794
tumor (abs), 320
Exostoses, hereditary multiple cartilaginous (abs), 796
Eye, early detection of intraocular foreign body of metallic density, 436

Femur, aseptic necrosis of head of, following traumatic dislocation (abs), 625
congenital defect of (abs), 624
fracture of neck of, complicating roentgen therapy of ovarian cancer, 883
Fibrin bodies, 532
Fibroma, ossifying, of mandible, calcium and phosphorus metabolism in (abs), 795
Fibula, osteochondroma of, with resultant foot drop (abs), 795
Filtration, heavy, effect of, on skin tolerance and depth dose, 756
relation between tin and copper, when using a thick-walled roentgen tube, 122
Fistulae, bronchial and esophageal (abs), 619
Foot drop, result of osteochondroma of fibula (abs), 795
Foreign bodies in upper alimentary canal causing dysphagia, 173
Foreign body, intraocular, of metallic density, early detection of, 436
Fracture of femoral neck complicating roentgen therapy of ovarian cancer, 883
Fractures of sacrum, their incidence in fracture of pelvis, 100
vertebral, involvement of intervertebral disc in, 235

Gallstones, floating, cholecystographic artefact (abs), 470
gas-containing (abs), 469
preoperative roentgen diagnosis of ileus due to (abs), 469
Gamma rays, comparative effect of, and 200 kv. roentgen rays on pupae of *Drosophila melanogaster* (abs), 479
Gas, perirenal injections of, in roentgen study of adrenal glands (abs), 792
Gastric secretion, effect of radiation therapy on (abs), 630
Gastritis, follicular, report of case, 438
Gastrointestinal tract, carcinoma, life expectancy and incidence of (abs), 477
disturbances of rotation of (abs), 621
symptomless perforation of (abs), 155
use of intestinal intubation in localization of lesions of, 321
Genital organs, female, conservative treatment of inflammations of, by aid of roentgen rays (abs), 935
Gliomas, effect of roentgen therapy on (abs), 471
Golgi apparatus in estimation of cytoplasmic changes from different types and dosages of radiation (abs), 477
Gynecological conditions, functional, irradiation with small doses in treatment of, 731

Hand, malformations of (abs), 624
Hand-Schüller-Christian's disease (abs), 624
Heart, and sport (abs), 790
compression of, due to pericardial scar, 38
determination of area of, 611
determination of size of, 1
disease, acquired valvular, roentgen aspects, 47
disease, arteriosclerotic, value of contrast roentgenograms of heart in, 14
disease, congenital, roentgenology of, 72
disease, hypertensive, value of contrast roentgenograms of heart in, 14
disease, non-valvular, roentgen aspects, 60
disease, rheumatic—mitral stenosis, value of visualization of chambers of heart in, 14
disease, rheumatic, special roentgen procedures in detecting cardiac enlargement in children with (abs), 790
disease, visualization of chambers of heart, pulmonary circulation and great blood vessels in, 14, 450
enlargement of, in infants and young children (abs), 463
inflammatory diverticula of, 38
kymography of (abs), 618
measurement of, aided by horizontal orthodiagraphy, 264
normal volume of, in man (abs), 152
present day attitude to estimation of size of, and to question of damage (abs), 790
roentgen estimation of size of (abs), 618; (abs), 619
roentgen kymographic examination of function of (abs), 153
roentgen observations in congestion of (abs), 791
roentgen study of function of (abs), 465
roentgen tests of function of (abs), 791
size of, and asthma constitution (abs), 463
size of, in healthy children (abs), 152
special roentgen procedures in detecting enlargement of, in children with rheumatic heart disease (abs), 790
visualization of chambers of, in heart disease, 14
Hemangioma of vertebra with compression myelopathy, 192
Hematoma of kidney bed, roentgen picture (abs), 621
Hernia, diaphragmatic, in newborn (abs), 154
Hodgkin's disease, 608
of liver (abs), 159
radium therapy in, 888
with ulcerative involvement of skin (abs), 148
Hospital, essentials of a registered (E), 291, 301
Humerus, regeneration of lateral condyle of, after excision (abs), 795
Hydatid cysts, calcified (abs), 160
Hydrochloric acid, use of, in atrophy and delayed calcification in fractured bones (abs), 159
Hygroma, cystic, of neck in children, roentgen therapy, 551
Hyperparathyroidism simulating or associated with Paget's disease (abs), 319
with rather rapid recalcification of bone following removal of adenoma (abs), 318
Hyperthyroidism, non-operative treatment of (abs), 631
Hypopharyngeal region, diseases of, producing dysphagia, 173

LIFE expectancy and incidence of malignant disease (abs), 475; (abs), 477
LIP, carcinoma, life expectancy and incidence of (abs), 475
LIPOID pneumonia in infants and children (abs), 789
LIPIODOL, removal of, after myelography, 525
LIPOSARCOMA, of mediastinum and lung, 341
LIVER, malignant lymphogranulomatous cirrhosis of (abs), 159
roentgen visualization of, with iodine sols (abs), 469
LONG ISLAND RADIOLOGICAL SOCIETY, 136
LUCAS, CHARLES DE FOREST, 1899–1939, obituary (E), 297
portrait, 297
resolutions presented by American Radium Society on death of, 298
LUNG, roentgen measurements of apico-basal relaxation of, during artificial pneumoperitoneum treatment (abs), 151
vascular endothelioma of (abs), 466
LUNGS, asbestos body and similar objects in (abs), 149
association of silicosis and carcinoma of (abs), 150
liposarcoma of, 341
lymphosarcoma of, 503
metastatic infiltrations of, of inflammatory origin, 828
non-putrid suppuration of, 606
"plate-like" atelectasis of (abs), 616
primary carcinoma of (abs), 615
roentgen observations in cardiac congestion of (abs), 790
tumors of apices of, and adjacent regions involving brachial plexus (abs), 150
LYMPH GLANDS, anthracotic, sequestration of, at

tracheal bifurcation with bronchial and esophageal fistulae as clinical entity (abs), 619
Lymphadenoma, regional x-ray baths in treatment of (abs), 630
Lymphatic block, enlargement of lower extremity as result of, 683
Lymphoblastoma, 608
Lymphogranuloma venerum, roentgen therapy in, 376
Lymphosarcoma, 608
of stomach, diagnosis and treatment, 332
pulmonary, 503

Metabolism, calcium and phosphorus, in ossifying fibroma of mandible (abs), 795
calcium, effects of treatment on, in human body (abs), 632
Metastases, cancer, differentiation from angiosarcoma of bone, 656
from carcinoma of tongue, 833
osseous, following treatment of uterine carcinoma (abs), 631
pulmonary, of inflammatory origin, 828
Mitochondria of tumor cells in estimation of cytoplasmic changes from different types and dosages of radiation (abs), 477
Mitral valve, typical auricular pulsation in insufficiency of (abs), 618
Morquio's disease (abs), 623
Mucosal pattern technique and kymographic records of esophagus and stomach (abs), 466
Myelography, removal of lipiodol after, 525
Myeloma, multiple, differentiation from angiosarcoma of bone, 656
Myelopathy, compression, in hemangioma of vertebra, 192
Myography, roentgen (abs), 478

Nasophyarynx, malignant neoplasms of (abs), 146
Neck, cystic hygroma of, in children, roentgen therapy, 551
Necrosis, aseptic, of head of femur following traumatic dislocation (abs), 625
Neoplasia, reticulo-endothelial, 820
Neoplasms, malignant, of nasopharynx (abs), 146
Neurofibromatosis with malignant thoracic tumor and metastasis in child (abs), 793
Neurological study, significance of roentgen examination of deglutition in (abs), 614
Neuropathic disorders causing dysphagia, 173
Nevi, vascular, roentgen therapy, 609
New York Roentgen Society, 136
Newborn, diaphragmatic hernia in (abs), 154
duodenal perforation in (abs), 792
spontaneous pneumothorax in (abs), 788
tension pneumothorax in (abs), 151
Nobel Prize in physics, 919
"Notch" shadows, anterior and posterior, seen in lateral roentgenograms of vertebrae of infants, 663
Nucleus pulposus, roentgen diagnosis of injuries of, 235
rupture of (abs), 626

Oral cavity, carcinoma, life expectancy and incidence of (abs), 475
Orthodiagraphy, horizontal, cardiac mensuration aided by, 264
Ossification, epiphyseal, hereditary multiple disturbances of, as clinical entity (abs), 624
factors influencing appearances of centers of, during early childhood (abs), 794
Osteitis deformans of vertebrae, compression of spinal cord in, 345
Osteochondritis, syphilitic, lesions simulating, found in non-syphilitic infants, 637
Osteochondroma of fibula with resultant foot drop (abs), 795
Osteochondrosis deformans tibiae, 498
Osteoclastoma of axis vertebra (abs), 471
Osteomyelitis, acute infective, of spine (abs), 622
syphilitic, diagnostic features, 637
Osteoperiostitis, syphilitic-like, in non-syphilitic infants, 637
Osteosarcoma of bony pelvis (abs), 627
Osteosclerosis associated with anemia (abs), 628
Otitis media, acute and chronic, roentgen therapy in, 285, 451
Otolaryngology, irradiation for infection in (abs), 472
Ottonello's method, roentgenography of second cervical vertebra by (abs), 478
Ovary, cancer, fracture of neck of femur complicating roentgen therapy of, 883

Pacific Roentgen Club, 136

PAGET'S DISEASE, hyperparathyroidism simulating or associated with (abs), 319
of vertebrae, compression of spinal cord in, 345
PANCOAST, HENRY KHUNRATH, 1875–1939, obituary (E), 293
portrait, 293
PARATHYROID extracts, variations produced in bones of growing rats by (abs), 478
glands, depletion of storage of calcium by activities of (abs), 318
PATIENTS, with cancer, study of, 161
PELVIMETER, Torpin-Thoms roentgen, 608
PELVIMETRY, roentgen, simplified method, 847
PELVIS, bony, osteosarcoma of (abs), 627
incidence of fractures of sacrum in fracture of, 100
malformations of (abs), 624
PENIS, plastic induration of, radium treatment, 545
PEPTIC ULCER, duodenal, associated with stenosing esophagitis, 724
prepyloric, and carcinoma, 797
roentgen evidence of healing in (abs), 467
PERFORATION, symptomless, of gastrointestinal tract (abs), 155
PERICARDITIS, tuberculous, clinically manifest (abs), 789
PERICARDIUM, inflammatory diseases of, 38
PERTHES' DISEASE, rôle of acetabular changes in (abs), 625
PETROUS tip suppuration, observations on (abs), 461
PEYRONIE'S DISEASE, radium treatment, 545
PHALANGES, terminal, developmental abbreviation of (abs), 622
PHARYNX, cancer, dental lesions observed after roentgen therapy in, 404
physiological movements of, 173
PHOSPHATASE, serum, correlation between and roentgenographic type in bone disease (abs), 317
PHOSPHORUS metabolism in ossifying fibroma of mandible (abs), 795
poisoning in an infant resulting from antirachitic preparation (abs), 319
PHOTOGRAPHY, miniature clinical, 609
roentgen, two years of (abs), 633
PHYSICS, Nobel prize in, 919
PICK'S SYNDROME, 38
PINEAL GLAND, methods for determining position of, 490
shadow, determination and diagnostic evaluation of displacement of, in lateral roentgenogram (abs), 787
PITRESSIN, reactions following use of, in cholecystography, 811
PITTSBURGH ROENTGEN SOCIETY, 137
PLACENTA, localization of, 608
previa, roentgen diagnosis of, 709
roentgen visualization of, 709
PLASMOCYTOMA of innominate bone (abs), 622
PLATYBASIA (E), 443
PLEXUS, brachial, tumors of pulmonary apices and adjacent regions involving (abs), 150
PNEUMATOCELE capitis (abs), 460
PNEUMOCONIOSIS, roentgen-ray diffraction analysis as applied in (abs), 634
PNEUMO-ENCEPHALOGRAPHY, 605
apparatus for, 307
PNEUMOGRAPHY, cerebral, in childhood (abs), 461
PNEUMONIA, lipoid, in infants and children (abs), 789
lobar, roentgen treatment, 411
upper lobe, in adult (abs), 147
PNEUMOPERITONEUM treatment, artificial, roentgen measurements of apico-basal relaxation of lung during (abs), 151
PNEUMOTHORAX, artificial, contralateral spontaneous pneumothorax complicating (abs), 151
contralateral spontaneous, complicating artificial pneumothorax (abs), 151
spontaneous, associated with spontaneous mediastinal emphysema (abs), 789
spontaneous, in newborn (abs), 788
spontaneous, types of (abs), 788
tension, in newborn (abs), 151
POLARIZATION, stereoroentgenoscopy using, 143
POLYHYDRAMNIOS, roentgen diagnosis of, 709
PREGNANCY, extra-uterine, roentgen diagnosis of, 709
roentgen visualization of soft tissues in, 709, 718
PROSTATE, rhabdomyosarcoma of (abs), 316
PROTECTION, electrical devices for, in work with radium, 930
roentgen-ray and radium, 609
PSEUDARTHROSIS, congenital, of tibia, 104
PULMONARY ARTERY, diffuse dilatation of (abs), 154
roentgen examination of, 75
PURPURA HEMORRHAGICA, splenic irradiation in treatment of (abs), 632

RADIATION, actinic, radiometric measurement of skin response to, 609
comparison of cytoplasmic changes induced in Walker rat carcinoma 256 by different types and dosages of (abs), 477
damages in roentgen diagnosis and their avoidance (abs), 474
effects, rhythm of, 572
physiological effects of, 110
therapy, effect of, on gastric secretion (abs), 630
RADIOLOGICAL Conference, mid-summer, in Rocky Mountains, 135
practice, business side of, 603, 773
services for crippled children, 449
Society of New Jersey, 136
RADIOLOGISTS, Midwinter Conference of Eastern, 903, 920
postgraduate courses for, 305
RADIOLOGY, actions pertaining to, at St. Louis session of American Medical Association, 301

Radiosensitivity of tonsils, new method to raise (abs), 473
Radium, effects of treatment on, in human body (abs), 632
electrical protective devices for work with, 930
experiments on production of spinal deformities by, 217
protection, 609
quantity meter, 900
resolution on prescribing of, 302
therapy in Hodgkin's disease, 888
treatment of angioma in children, 726
treatment of Peyronie's disease, 545
Rats, growing, variations produced in bones of, by parathyroid extracts (abs), 478
Rectum, stenosis of, from roentgen therapy (abs), 632
Respiratory tract, upper, protracted external irradiation of neoplasms of, 572
Reticulo-endothelial neoplasia, 820
Rhabdomyosarcoma of prostate (abs), 316
Rhythm of radiation effects, 572
Rickets, phosphorus poisoning in infant resulting from preparation against (abs), 319
Riedel's thyroiditis, radium treatment (abs), 629
Roentgen diagnosis, radiation damages in, and their avoidance (abs), 474
examination of paranasal sinuses, value of (abs), 788
films, intralaryngeal, examination of larynx and adjacent structures with, 481
irradiation, effect of, on distribution of lead in cat after intravenous injection of colloidal lead preparation (abs), 480
irradiation, regional body, in treatment of lymphadenoma (abs), 630
irradiation, rotational (abs), 474
irradiation with small doses in functional gynecological conditions, 731
myography (abs), 478
photography, two years of (abs), 633
radiation, lethal effect of, produced by 50 to 1,000 kv. on Brown-Pearce rabbit epithelioma, 110
-ray diffraction analysis as applied in pneumoconiosis (abs), 634
-ray protection, 609
rays, action of, on nucleated and non-nucleated egg fragments (abs), 479
rays, beginning use of, 161
rays, biological action of (abs), 634
rays, 200 kv., comparative effect of, and gamma rays on pupae of *Drosophila melanogaster* (abs), 479
therapy, clinical symptoms useful as guide for, 565
therapy of cystic hygroma of neck in children, 551
treatment of encephalitis, 561
tube, thick-walled, relation between tin and copper filtration when using, 122
Roentgenogram, pathology of base of skull in (abs), 787
Roentgenograms, lateral, of vertebrae of infants, anterior and posterior "notch" shadows seen in, 663
Roentgenographic changes, nonspecificity of many, of syphilis of skeleton in early infancy, 637
Roentgenography, stereoscopic, of skull, apparatus for, 921
Roentgenology, neurologic, course in, 636
Roentgenoscopy, aspiration biopsy of tumors in obscure or difficult locations under, 515

Sacrum, fractures of, incidence in fracture of pelvis, 100
Salivary gland, intraoral minor, adenocarcinoma, 508
Salpinx, histological and roentgen study of interstitial portion of (abs), 792
Sarcoid, Boeck's (abs), 628
Sarcoma, Ewing's (abs), 626
Ewing's, diagnosis, differential diagnosis and therapy (abs), 794
osteogenic, differentiation from angiosarcoma of bone, 656
primary, of vertebra, differential diagnosis (abs), 625
Scalp, cirsoid aneurysm of (abs), 461
Schmitz, Henry, resolutions presented by American Radium Society on death of, 305
Sciatica and backache, 607
Science, keeping in step with (Caldwell Lecture, 1938), 161
Scoliosis, experimental production of, by radium, 217
Sensitivity of skin to roentgen radiation and its relation to endocrine influences (abs), 633
Sigmoid, roentgen visualization of deep-seated pathologic processes in (abs), 156
Silicosis, association of, and carcinoma of lung (abs), 150
hematogenous tuberculosis and (abs), 465
study of (abs), 149
Silvanus Thompson Memorial Lecture, 20th (abs), 634
Sinuses, paranasal, value of roentgen examination of (abs), 788
roentgen treatment of infections of, 857
Skeleton, syphilis of, in early infancy, 637
Skin response to actinic radiation, radiometric measurement of, 609
sensitivity of, to roentgen radiation, and its relation to endocrine influences (abs), 633
tolerance, effect of heavy filtration on, 756
ulcerative involvement of, in Hodgkin's disease (abs), 148

SKULL, air under pericranium of one or several bones of (abs), 460
apparatus for stereoscopic roentgenography of, 921
normal, anomalies and variations from roentgen viewpoint, 367
pathology of base of, in roentgenogram (abs), 787
reaction of bones of, to intracranial lesions (abs), 462
SOFT TISSUES, roentgen visualization of, in pregnancy, 709, 718
SOLOMON MEMORIAL LIBRARY, 306
SPECULUM, expanding, for transvaginal roentgen therapy, 423
SPINAL CORD, compression of, in osteitis deformans of vertebrae, 345
SPINE, acute infective osteomyelitis of (abs), 622
compression fractures of, differential diagnosis, 607
experiments on production of deformities of, by radium, 217
involvement of intervertebral disc in pathology of, 235
motion in, 91
movements of, 235
SPLEEN, irradiation of, in treatment of purpura hemorrhagica (abs), 632
roentgen visualization of, with iodine sols (abs), 469
SPLENECTOMY and ligation of gastric coronary vessels (abs), 154
STENOSIS, rectal, from roentgen therapy (abs), 632
STEREOROENTGENOSCOPY using polarization, 143
STEREOSCOPY, diagnosis of bronchial carcinoma by means of (abs), 615
STOMACH, benign tumors, differential diagnosis (abs), 467
diagnosis of calcification of wall of (abs), 620
lymphosarcoma of, diagnosis and treatment, 332
mucosal pattern technique and kymographic records of (abs), 466
SULCUS, superior, tumors of (abs), 465
SUPPURATION, petrous tip (abs), 461
SYMPUS MONOPUS, 721
SYPHILIS, infantile, nonspecificity of skeletal changes in, 607
of skeleton in early infancy, 637
SYPHILITIC cardiovascular disease, value of contrast roentgenograms of heart in, 14

TECHNIQUE for determination of cardiac area, 611
of aspiration biopsy, 515
perirenal injections of gas in roentgen study of adrenal glands (abs), 792
rapid functional test of large intestine (abs), 156
roentgenographic method for study of second cervical vertebra, 782
roentgenography of second cervical vertebra by Ottonello's method (abs), 478
single and double contrast, method for direct immediate examination of small intestine, 456
TETANY syndrome in newborn infants (abs), 319
THORACIC VISCERA, 607
THORIUM DIOXIDE, colloidal, use in arteriography of substitutes for (abs), 320
THROMBOSIS, deep venous, enlargement of lower extremity due to, 683
THUMBS, three-phalangeal, 677
THYROID GLAND, radiotherapeutic aspect of malignant tumors of (E), 909
THYROIDITIS, Riedel's, radium treatment (abs), 629
TIBIA, congenital pseudarthrosis of, 104
TISSUES, soft, roentgen visualization of, in pregnancy, 709, 718
TOMOGRAPHY, diagnosis of bronchial carcinoma by means of (abs), 615
TONGUE, lymphatic drainage of, 833
malignant tumors of, modified method of treatment, 890
metastases from carcinoma of, 833
spontaneous amputation of, 843
TONSILS, new method to raise radiosensitivity of (abs), 473
TRAUMA, rapidly progressing cerebral atrophy due to, encephalography in (abs), 146
TROPICAL diseases of colon, roentgen examinations in (abs), 792
TUBERCULOSIS, hematogenous, and silicosis (abs), 465
multiple cystic, of bones in children (abs), 157
of long bones (abs), 158
of pericardium (abs), 789
renal, pathogenesis and roentgen findings, 700
TUMOR, Ewing's (abs), 320
malignant thoracic and metastasis in child, with neurofibromatosis (abs), 793
TUMORS, aspiration biopsy of, in obscure or difficult locations under roentgenoscopic guidance, 515
benign gastric, differential diagnosis (abs), 467
bone, roentgen appearance of (abs), 626
epithelial, production of, by combination of beta radiation and painting with benzpyrene (abs), 480
malignant, of thyroid gland, radiotherapeutic aspect (E), 909
malignant, of tongue, modified method of treatment, 890
of pulmonary apices and adjacent regions involving brachial plexus (abs), 150
of superior sulcus (abs), 465
of upper respiratory tract, protracted external irradiation of, 572
reticulo-endothelial, 820
transplantable rat, local asphyxia and roentgen irradiation of, 745

Ulcerative involvement of skin in Hodgkin's disease (abs), 148
Ulcers, esophageal (abs), 147
Ureter, primary carcinoma of (abs), 315
Ureteral obstruction, 608
Urethrography, 608
Urinary calculi developing in recumbent patients (abs), 470
Urography, excretory, by intramuscular injection of diodrast (abs), 793
in diagnosis of renal infection, 689
Uterus, carcinoma, osseous metastases following treatment of (abs), 631
cervix, cancer, expanding speculum for transvaginal roentgen therapy, 423
cervix, cancer, roentgen therapy of, 418

Vascular diseases, circulatory disturbances in brain resulting from, shown by arteriography (abs), 787
Vascularization of Brown-Pearce rabbit epithelioma transplant as seen in transparent ear chamber, 891
Veins, varicose, unilateral enlargement of lower extremity accompanying, 683
Venography in unilateral enlargement of lower extremity, 683
Venous block, deep, roentgen studies of, 683
Ventriculography, intracranial, conditions in childhood identified by (abs), 461
Vertebra, hemangioma of, with compression myelopathy, 192
persistent epiphyses of processes of, 85
primary sarcoma of, differential diagnosis (abs), 625
second cervical, roentgenographic method for study of, 782
second cervical, roentgenography of, by Ottonello's method (abs), 478
Vertebrae, compression of spinal cord in osteitis deformans of, 345
congenital wedge-shaped, progressive kyphosis from (abs), 623
involvement of intervertebral disc in fractures of, 235
of infants, anterior and posterior "notch" shadows seen in lateral roentgenograms of, 663

Walker rat carcinoma 256, comparison of cytoplasmic changes induced in, by different types and dosages of radiation (abs), 477
Wilson's procedure in recognizing early cardiac enlargement (abs), 790
Wrist, Madelung's deformity, 671

Xanthomatosis (abs), 624
of bone, differentiation from angiosarcoma, 656
Xanthomatous diseases, different clinical groups of (abs), 316
